

Laser cut dozens of small rectangles for the base pieces
Print on heavy weight paper
Print inverse duplicate (for back side) and glue together
ModgePodge two rectangle pieces at bottom of image
(even out bottom to make sure it stands)

Laser cut the base on clear acrylic
Print the image and
ModgePodge the paper
beneath acrylic
suggestion: only apply glue to the edges, not all over the surface

two words: COPY MAT
(seriously the best place
to get cards done)
suggestion: leave generous
margin space
